| These primary files consist of computer and hard copy data on cases for which an application based upon disability has been made: disabled persons applying for or receiving federally and state funded Medical Assistance (MA) and case records of disabled persons who applied for or received (MA) but whose application was denied or whose assistance was discontinued for reasons other than death. This information is used to determine whether the person meets the disability definition. The computer format includes key elements of disability review data such as case/client identification, application type, diagnoses and disability determination. Secondary files include copies of all documentation of disability based upon current federal and state guidelines as specified in the -Medical Assistance Eligibility Manual for State Assistance Programs - (includes but is not limited to medical evidence). Medicaid disability applications received by the Medicaid Medical Review Team are copies of original records maintained by the originating County Office of the Division of Family Resources.  Partially public record in accordance with IC 12-15-27-4. Retention partially based on 42 CFR 433.32. |       |
